Summary

Detail-oriented and versatile Computer Science student with strong experience in web development, product innovation, and academic research support. Proven ability to communicate complex ideas clearly, manage projects efficiently, and collaborate across multidisciplinary teams. Skilled in proposal writing, data organization, and digital tool integration. Passionate about leveraging technology and research to drive impactful, real-world solutions.

WORK EXPERIENCE

Frontend Developer August 2024 - Present

Dotsavvy Africa | Nairobi, Kenya

- Spearheaded the development of responsive WordPress websites for key clients (including **Gulf African Bank**), utilizing WPBakery and ACF to improve page load speed by **30%** and content publishing speed by **20%**.
- Built reusable templates and interactive lead generation tools that increased user engagement by **40%** and conversion rates by **25%**.
- Implemented critical optimizations for accessibility and security, resulting in a **99.9%** site uptime and a **20%** reduction in bounce rates.

Products & Innovation Intern (Academic Attachment) June 2025 - August 2025

Interswitch East Africa | Nairobi, Kenya

- Gained practical exposure to the fintech product lifecycle, actively participating in ideation sprints, market research, and feature design.
- Utilized **Agile methodologies** and **Jira** to track project progress and support cross-functional teams in addressing real-world user problems.

PROJECTS

Career Canopy (Job Tracking System) | *Django REST, React, PostgreSQL, JWT*

[Preview](#) | [View in GitHub](#)

- Developed a full-stack application to track job search lifecycles, utilizing **Django REST Framework** and **PostgreSQL** for backend data management and **React** for the frontend interface.
- Implemented secure **JWT-based authentication** and a responsive dashboard to centralize application logging, deadlines, and status updates, ensuring data privacy and organization.

BusinessAdmin (In-House ERP) | Django REST, PostgreSQL, React

[View in GitHub](#)

- Engineered a custom ERP system to streamline administrative duties, featuring modules for inventory management (stock in/out), license tracking, and task delegation.
- Enhanced operational transparency and reduced discrepancies by digitizing administrative workflows, allowing real-time status monitoring of organizational assets and policies.

E-Parking Ticket System | UI/UX Design, Figma

[View Figma File](#)

- Designed a high-fidelity **Figma prototype** for an electronic ticketing system, featuring mobile-responsive layouts, user dashboards, and comprehensive admin panels.
- Modeled secure payment flows supporting **M-Pesa** and digital wallets to demonstrate seamless transaction experiences.

LEADERSHIP & VOLUNTEERING

Innovation Hub Lead (Student & Technical Lead) | Mar 2024 – Present

The Catholic University of Eastern Africa | Nairobi, Kenya

- Oversee strategic operations, recruitment, and project delivery, fostering a multidisciplinary culture across research and tech units.
- Organize and lead technical workshops in partnership with **Google Developer Student Clubs**, enhancing student proficiency in **React**, **Cybersecurity**, and emerging technologies.

EDUCATION

BSc in Computer Science Sep 2022 – April 2026

The Catholic University of Eastern Africa.

- **Relevant Certifications:** [Cybersecurity Fundamentals \(IBM\)](#) , [Project Management Fundamentals \(IBM\)](#) , Software Development (Power Learn Project)

SKILLS

- **Languages & Frameworks:** JavaScript (React.js), Python (Django REST), PHP, SQL (PostgreSQL), HTML5, CSS3 (Tailwind).
- **Tools & Platforms:** Git/GitHub, WordPress (WPBakery/ACF), Figma, Jira, VS Code.
- **Professional Skills:** Agile Methodologies, Technical Research & Proposal Writing, Project Coordination, UI/UX Design.
